

# Ordering Options

## ONLINE

Through our e-commerce website is the quickest and most efficient way to place your order:

**WWW.TARGETDISTRIBUTING.NET**

The website will provide you with the most up to date and accurate pricing. Once orders are received a representative will reply, confirming your order and indicating any items out of stock, and anticipated ship date if available. For issues with login and/or password please contact Joe at:

**1-800-348-5076, or**

**Joe@TARGETDISTRIBUTING.NET**

---

## PHONE

Orders placed by phone will be input directly into our system. This allows us to provide you with valuable information on current prices and product availability.

To assure a smooth order experience please take the following steps:

1. Complete your purchase order prior to calling. This includes COMPLETE Part Number and quantities. **ALL RETURN/REPLACEMENT SHIPPING CHARGES ARE YOUR RESPONSIBILITY IF ORDERS ARE PLACED WITHOUT THE CORRECT PART NUMBER.**
  2. When calling, please provide your Customer Number (located on an invoice or the back of your catalog) and any purchase order number for your internal reference. **We have several dealers with very similar names, it is important accuracy that you provide your Customer Number.**
  3. Indicate any "need by date" or preferred shipping method. Please communicate if you are looking for the cheapest shipping option, prefer a certain carrier, or need items by a certain date.
  4. If paying by Credit Card, indicate if there is any change in your preferred card. If it has been at least a year since your previous order, please verify your current card information with Stacey. **CREDIT CARD INFORMATION CANNOT BE UPDATED THROUGH THE WEBSITE, NOT EVEN IN THE MEMO OR COMMENTS SECTION.**
- 

## EMAIL

Please email any orders to :

**ORDERS@TARGETDISTRIBUTING.NET**

Emails sent to this address will go to ALL employees in the office, ensuring your order is not missed in the event of an absence.

## FAX

Fax Orders to :

**1-888-827-9243**

On your fax order and/or cover page include:

1. Customer Number
2. Contact Name and Number for questions.

### Missing or Damaged Items

**WE MUST BE NOTIFIED IMMEDIATELY OF ANY SHIPMENTS RECEIVED WITH DAMAGED OR MISSING ITEMS.**

- Check Shipment in as soon as possible.
- Forward a list of missing items along with pictures of all sides of the boxes (damaged or not), and a picture of the shipping label. If there are damaged items, include pictures of these as well.
- Retain all damaged items and packaging until the issue has been resolved.

Warranty: Target Distributing makes no warranties what so ever, expressed or implied, oral or written. Many products do carry limited warranty from the manufacturer and these products are subject to approval of the

manufacturer before replacement or credit is issued. We will help you as much as possible to obtain replacement or credit.

Disclaimer: All products in this catalog are intended for aftermarket use only. All references to manufacturer name or part number is strictly intended for reference only and does not constitute an endorsement by the said manufacturer. Illustrations may not always be correct and are meant only as a graphic representation of the product.

## Order Add Ons

We do our best to include any order additions with your original order when packaging. Add on requests received late in the day, or on a day with a high volume of orders, may be shipped separately and treated as a separate order.

## Back Orders

You will be notified when back order items have arrived, especially in the case of Engines, short blocks and MyChron Gauges. You will be given the opportunity to place and order to ship with these items to take advantage of shipping discounts (excluding the limitations for special items). Please respond to any communication regarding your intent to take items waiting for you. **ITEMS IN HIGH DEMAND WILL ONLY BE HELD 1 WEEK BEFORE CANCELING YOUR BACKORDER AND OFFERING ITEMS TO THE NEXT ELIGIBLE CUSTOMER.**

## Returns

Please request permission to return any item within 14 days of invoicing. Returned items must be accompanied by a copy of the invoice and reason for return. Closeouts and Special Order Items are NOT eligible for return. **All Returns Subject to a 20% Restocking Charge.**

## Shipping Methods

Orders are shipped via UPS unless otherwise specified. Cost is determined on the dimensional weight of the package. To reduce shipping charges to our dealers we also utilize USPS Priority Mail and Flat Rate as well as UPS Simple Rate. UPS Simple Rate is Comparative in Cost to USPS Flat Rate. If looking for cheapest shipping option, please indicate "Best Way" on your order. 2-3 Day Shipping and Overnight is available through USPS and UPS both.

## RZ-42Y Snell CMR 2016

Zamp's RZ-42Y was designed for youth auto racing applications. The Snell CMR2016 rating was established by the Snell Foundation in collaboration with the FIA to create a uniform set of standards which full face helmets designed for youth in Motorsports must all meet. Key to this standard is a maximum helmet weight and smaller shell designed for the youth helmet. The best protection for a young driver is a properly fitted certified youth helmet.

### Features Include:

- Composite Kevlar Mix for a Super Lightweight Shell
- Small Shell Designed Specifically for Youth
- Option to Run Forced Air Accessory with Top Air Intake Vent and Chin Vents
- Plush Fire Retardant Interior Removable/Washable to Replace or Refit

# Chest Protectors & Rib Vests

## Ribtect Chest Protector

**SFI Certified**

Tested under the SFI 20.1 Certifications, the Ribtect Chest Protector meets the requirements for chest protectors in 12 and under classes for most karting series. Designed for maximum protection it is constructed with 2 layers of vacuum formed polypropylene plastic. Even with the heavy duty buckles it is a lightweight, non-bulky comfortable fit for young drivers.

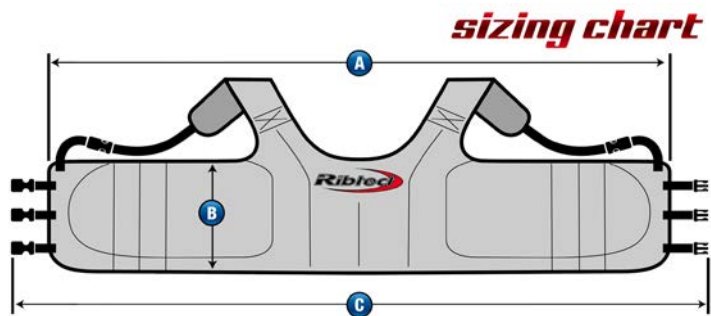

Part No.	Description
SM1	ages 5-8
Sm2	ages 9-12

## Ribtect 4 Rib Vest

A very common driver injury is the impact of ribs on the edge of a seat after the driver comes up out of the seat and is then pulled to one side by the centrifugal force. This impact can break, separate or severely bruise one or many ribs. The design of the Ribtect Vest since construction of the very first is to provide protection for the driver on reentry to the seat; effectively guiding the driver back in the right position. The Ribtect 4 Vest, the latest design, boasts improved protection while lasting longer than any of its predecessors. A new and high tech material used to construct the outer panels has been "hammer" tested and track tested to ensure superior protection.

## Alignment Tools

### V2 Alignment Gauge Set

***The most Advanced, Accurate, and Safest Laser Alignment System for Karting in the World.***

The V2 Laser Alignment System is a 2 laser system which allows you to set Camber and Toe on your kart either while on the stand or while sitting on the ground with a driver in it. Suitable to all kart racers in can fit on spindles up to 63mm and gives you the ability to measure up to 24mm of negative Camber. The Sniper V2 is made from a Stainless Steel Construction. To provide long term reliability and consistent high accuracy the unit is attached through hardened SST (55HRC) contact surfaces combined with pot magnet theory. The face of the unit has been optimized to reduce any glare and offer ultimate clarity. Comes with purpose made box for protection.

# Swift Magnesium Kart Wheels

The Low Volume (LV) Wheel is designed to reduce the gas volume inflating the tire allowing a lower initial tire pressure and promoting lower final tire temperatures. LV Wheels have thinner larger diameter walls, improving heat transfer rates and giving more cooling surface area. This extra cooling capacity helps stabilize and regulate temperature and pressure rise, for better and longer tire temperatures.

Features:

- Stainless Steel Bead Screws
- High Quality Valve Stems
- Magnesium Alloy with Higher Impact Strength
